HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

DISPATCHES TO THE OREGONIAN.

DATES TO JUNE 27.

Washington News.

WASHINGTON, June 26.—Ex Secretary Borie left for Philadelphia this morning.

Secretary Robertson is at the Department engaged in official duties.

The President to-day appointed DeLaplaine, of New York, Secretary of Legation at Vienna, and W. M. Wood, Surgeon of the U. S. Navy, to be chief of the Bureau of Medicine and Surgery in the Navy Department, in place of P. F. Hamilts.

Among the clerks removed from the loan branch of the Treasury this morning, was J. C. Walker, formerly reading clerk in the House of Representatives.

Maj. J. J. Nash, Supervisor of Internal Revenue in Tennessee, telegraphs to Commissioner Delano to-day that he will resign his position. Nash is an active supporter of Senter, and resigns to participate in the campaign.

CHICAGO, June 27.—*A Republican* special says the President has decided to take another trip this summer, about the middle of July. He will not take an extended tour, but remain within easy reach of Washington.

Secretary Rawlins will also be absent about a month, but he will take a trip over the Pacific Railroad.

Secretary Fish also intends taking a holiday next month.

Commissioner Delano has telegraphed to Supervisor Neat, of Tennessee, that his resignation would be accepted, whereupon he resigned by telegraph.

There is some trouble about Gen. Butterfield's appointment as Assistant Treasurer at New York. He being a colonel in the regular army cannot hold two offices.

A *Times* special says the new Secretary of the Navy does not intend being a mere figure, but will run the office himself.

A meeting of printers of this city and employees of offices outside of the Government printing office, was held last night, at which the action of the National Typographical Union in Douglass' case was indorsed. An address to the officers of that body was prepared and signed by those who were present. It is understood the object of this meeting was to condemn the management of the Government printing office, and declares that the printers retaining positions therein are "rats," on the ground that they violated the laws of the organization.

New York News.

NEW YORK, June 26.—The search for Col. Ryan continues, but this morning it is reported the District Attorney shows a willingness to reduce the bail in the case of the other prisoners.

General Butler had a long interview with Marshal Barlow to-day, the nature of which has not transpired.

The *Europa*, bound for Glasgow, ran ashore at Lower Bay, this afternoon.

Lieut. C. H. Rowell, of Saratoga, died at quarantine, yesterday, of yellow fever.

J. W. Barker, formerly a noted politician and head of the General Council of Know Nothings, of this State, died of paralysis, at Radway, N. J., to-day.

The yacht *Dauntless* sailed for Europe this afternoon.

The boiler of a pleasure tug exploded in Passaic river this afternoon, seriously injuring several persons.

The police yesterday captured a counterfeiter named Herring, with his paraphernalia for manufacturing counterfeit Treasury notes. A large amount of bogus twenties and fifties were also captured.

Yesterday Edward St. John, a German, was arrested on a charge of offering for sale $40,000 in bonds and a quantity of checks, stolen from the Brooklyn Bank in February last.

One of the fifteen gunboats building for the Spanish Government was launched yesterday and towed to the machine works at the foot of Vesey street, to receive her machinery. The entire number will be completed by August 1st.

Declaration of Independence.

MONTREAL, June 26.—A private letter from an eminent Englishman in high standing in the estimation of Government, says Gladstone, Johnson and Bright are strong supporters of Canadian independence. He further says the British Colonies will, within two years, be required to manage their affairs without recourse upon the mother country.

Cuba.

WASHINGTON, June 26.—Dispatches received to-night from Cuba, give further particulars of the fight near Puerto Delpadre, between the Cubans under General Mermen and the Spaniards under Terrero. The victory of the Cubans was complete. They captured an extensive train containing a large amount of provisions, ammunition, clothing and hospital stores, &c. Of Spaniards, over two hundred were killed. A number of Americans participated in the fight.

Information is received that the troops which have been concentrating for some time on the southern coast, numbering over 1,800, have all left for Cuba, and it is believed have successfully landed.

De la Roche, the Haytien Minister, has arrived here and had an interview with the Secretary of State.

The text of Lopez's reply, dated May 29, to the demand of the allies that he should lay down his arms and terminate the war, is published. Lopez repels the charge that he is guilty of causing unnecessary bloodshed, because he has defended his country against allied assaults, and he declares he is now, as he has been, disposed to treat for peace upon a basis equally honorable to all the belligerents, but he is not disposed to hear a word as to laying down their arms to treat for peace.

CHICAGO, June 27.—*A Tribune* New York special says that four persons were arrested yesterday for alleged violations of the neutrality laws, in fitting out expeditions and steamers destined for Cuba.

It is announced at Cuban headquarters by the the authorities, that orders have been sent from Washington to the United States Marshals to make no more arrests unless that the parties intended a violation of the neutrality laws.

NEW YORK, June 27.—The *Herald* states positively a Cuban expedition of 800 men left this port last night, under command of Col. Ryan, in person, accompanied by Col. Currier, General Spear, of Fenian notoriety, Gen. Giesaier, Capt Potina, and other officers of a body of men that will be known as the 1st New York Regiment. This expedition will be put aboard a vessel presumed to be the *Quaker City*.

The *Times* says the *Quaker City* was waiting for the Cuban expedition outside the Narrows. Gen. Glaconier is commander. A number of officers of the late U. S. volunteers are in the ranks, to be appointed to positions on their arrival in Cuba. The *Quaker City* has aboard 5,000 Remington rifles and two batteries of artillery, with arms for a brilliant array of cavalry and an abundance of ammunition.

Miscellaneous.

RICHMOND, Va., June 26.—J. Kelly, who was shot on Thursday evening by Capt. Callahan, died this morning. His death creates much feeling, he having been held by three policemen while Callahan, who had a personal feud with him, shot him. Callahan, who was under bail, has been arrested.

Edward Fontaine, projector of the Chesapeake and Ohio Railroad, died to day, aged 69.

General Canby orders that Callahan, who killed Kelly, be tried by military commission.

RICHMOND, June 27.—The funeral of Kelly, killed by Callahan and the policemen, was largely attended. The affair has assumed a political cast.

BOSTON, June 26.—The mixing mill of the American Powder Works, at South Acton, Mass., exploded last night. J. P. Gray was terribly burned.

LOUISVILLE, June 26.—At the sulphur wells, six miles from this city, James Arnold and Joseph Towell got into a quarrel, when the latter drew a pistol and shot Arnold, killing him, and then fled.

SARATOGA, N. Y., June 26.—In the five mile trot to day at the fair ground course, half mile track, between Lady Palmer and Bismarck, the former won without a single break.

WILKES' BAR, Penn., June 26.—The wife of Geo. W. Woodward, member of Congress, died yesterday morning.

NASHVILLE, June 26.—In the case of the tax payers against the Mayor and City Council of Nashville, Chancellor Smith rendered a decision appointing a receiver, and vacating all the city offices made by appointment. This is the result of speculation frauds by the city authorities, tending to bankruptcy.

MONTREAL, June 24.—John Young sailed for England this morning. He goes to organize the Canadian and European Telegraph Company.

CINCINNATI, June 26.—The vote to-day on the appropriation to the Southern Railroad was probably ten for to one against, in a total vote of 17,000.

NASHVILLE, June 27.—At half past 1 this morning, a fire was discovered in second story of Hicks & Houston's China store, on the corner of the public square. It progressed rapidly, notwithstanding the most active efforts of the firemen, and soon all the estate, comprising Hicks' block was in flames. The block was destroyed. Loss estimated at $225,000.

PROVIDENCE, May 27.—The Narragansett races closed with a trot for a purse of $3,000. It was won by a local horse in three straight heats, beating Lady Thorne, Goldsmith Maid, Lucy and George Palmer in the order named.

CHICAGO, June 26.—Rain still continues in the entire northwest. It is feared that the corn crop will be destroyed in many parts of the country. It is also feared the rust will damage the wheat, although the present prospects favor fine crops of that grain.

LOUISVILLE, June 26.—Geo. E. Webster, a prominent gentleman, died from injuries received by falling from a horse, while riding out for pleasure.

Destructive Storm in Kansas.

LEAVENWORTH, Kansas, June 26.—A terrible storm prevailed yesterday and last night through the western part of this State, doing much damage. The Kansas Pacific bridge over Chaplain creek, twelve miles west of the city, was swept away. The railroad bridge over the Republican Fork was standing this morning, but fears are felt that it will yield to the rising flood. This was the most destructive storm of the season. Trains for the west will probably be delayed a day or two, as the damaged bridges cannot be repaired till the subsidence of the floods.

Prospects are flattering of beautiful crops throughout the State. The wheat harvest has commenced in the southern portions.

BY ATLANTIC CABLE

MADRID, June 26.—There was an exciting debate in the Cortes to-day on the policy of the Government towards the Republicans and the arbitrary conduct of the civil government.

Syotta said our government was determined to punish unconstitutional manifestations.

BREST, June 26.—Advices are received from the *Great Eastern* up to this morning. Some difficulty had been encountered, but everything was favorable at last accounts. At noon, Friday, she made 497 knots from Brest, and paid out 542 knots of cable. This (Saturday) morning, a fault was detected in the shore communication, and the steamer was instantly stopped and measures taken to localize the fault. This was found impossible, but as the signal soon became perfect again it was resolved to proceed.

FLORENCE, June 26.—The *Signal* contains the following: The country is tranquil everywhere. The attitude of the population and the vigilance of the authorities will prevent further disturbances.

MILAN, June 26.—The Government has forbidden the circulation of subscriptions to aid persons injured in the State disturbances.

LONDON, June 26.—The Queen reviewed the Guards at Windsor in honor of the Viceroy of Egypt. Twenty thousand persons were present and great enthusiasm was manifested.

It is said that it will cost the Government six hundred and twelve million pounds sterling to purchase the telegraph lines in the country, as contemplated.

PARIS, June 26.—M. Scheneider to-day resigned the presidency of the Corps Legislatif in consequence of the indecorum of M. Droid, one of the Vice Presidents. The Emperor refused to accept his resignation.

ZURICH, June 26.—In consequence of the order forbidding Mazzini to reside in certain parts of Switzerland, he to-day, left for London.

Woman and Marriage.

I have speculated a great deal on matrimony. I have seen young and beautiful women, the pride of gay circles, married, as the world says, well. Some have moved into their costly houses, and their friends have all come and looked at their furniture and their splendid home for happiness, and have gone away and committed them to their sunny homes, cheerfully and without fear. It is natural to be sanguine for them, as the young are sometimes carried away with similar feelings.

I love to get unobserved into a corner and watch the bride in her white attire, and with her seeming smiling face and soft eyes meeting me in the pride of life, weave a waking dream of future happiness, and persuade myself that it will be true. I think how they will sit upon the luxuriant sofa as the twilight falls, and build gay hopes, and murmur in low tones the not now forbidden tenderness, and how thrilling the allowed kiss and beautiful endearments of wedded life will make even parting their joy, and how gladly they will come back from the crowded and empty mirth of the gay to each other's quiet company.

I picture to myself that young creature, who blushes even now at his hesitating caresses, listening eagerly for his footstep as the night steals on, wishing he would come, and when he enters at last, with an affection as undying as his pulse, nestling upon his bosom. I can feel the tide that goes flowing through the heart, and gaze with him on the graceful form as she moves about in the kind offices of affection, shooting all his unquiet cares, and making him even forget himself in her young and unshadowed beauty.

I go forward for years, and see her luxuriant hair put soberly away from her brow, and her girlish graces resigned into dignity and loveliness, chastened with the gentle meekness of maternal affection. Her husband looks on with a proud eye, and shows the same fervent love and delicate attentions which first won her, and her fair children are grown about them, and they look on, full of honor and untroubled years, and are remembered when they die.—*Washington Irving.*

THE UNWARIED ACTION OF THE HEART.—The effect of everything that touches the heart is multiplied by the intensity of the heart's own changes. Hence it is that it is so sensitive—so true and quick an index of the body's state. Hence, also it is that it never wearies. Let me remind you of the work done by our hearts in a day. A man's total outward work, his whole effect upon the world, in twenty-four hours, has been reckoned at about 350 foot-tons. That may be taken as a good "hard day's work." During the same time, the heart has been working at the rate of 120 foot-tons. That is to say, if all the pulses of a day and night could be concentrated and welded into one great throb, that throb would be enough to throw a ton of iron 120 feet into the air. And yet the heart is never weary. Many of us are tired after but feeble labors: few of us can hold a poker out at arm's length without, after a few minutes, dropping it. But a healthy heart, and many an unsound heart, too—though sometimes you can tell in the evening, by its stroke that it has been vexed during the day, that it has been thrown off its balance by the turmoils and worries of life—goes on beating throught the night while we are asleep, and when we awake in the morning, we find it at work, fresh as if it had just began to beat. It does this because upon each stroke of work there follows a period, a brief but real period of rest, because the next stroke which comes is but the natural sequence of that rest, and made to match it; because, in fact, each beat is, in force, in scope, in character, in everything, the simple expression of the heart's own energy and state.—*Appletons' Journal.*

Curious Freaks of Lightning.

Mr. J. H. Pavlock, says the Boise *Statesman*, sends us the following account of lightning freaks in Payette valley last week, which we think as remarkable as any ever recorded.

About five o'clock in the evening of the 14th, the house of C. N. Young, opposite Tomb's in Payette valley was struck by lightning. The house was occupied at the time by Mr. Young, and Mr. Baker and family. Mr. Young was leaning against the door post of the kitchen door, about one foot from a corner post of the main building. Mrs. B., was sitting on the wood box, at the opposite side of the door, while Mr. B., with their two children, was seated but a few feet beyond from the door, which was open—all enjoying the rain—when the lightning entered the roof (near the eave) of the main building. The fluid spread in all directions, the main current following the plate to the corner, near where Young was standing, passed down the post, then following the sill under his feet, passed under the wood box, and out at the corner of the kitchen. All were thrown to the floor, and Mr. Young was seriously injured. Nothing but a miracle could have saved his life. A portion of the electric fluid struck him on the right side, burning and blistering him badly. His left hand was also badly burned. His left boot was torn entirely from his foot, portions of it having never been found, and his foot badly bruised and burned. The box on which Mrs. Baker sat was split, and one of her shoes torn from her foot. One side of her was paralyzed for some time. Young remained paralyzed all below the region of the heart for several hours. All have recovered except Young, and he is doing as well as could be expected.

Where the lightning entered the roof, it is completely shattered by a tree that stands 20 to 30 feet higher than the house; yet, not a mark is to be seen on the tree, not a leaf cut off. Some 8 or 10 feet from where any marks can be seen, or anything that could conduct the fluid, was a box of Dickinson and Dodge's detersive soap. The box was shivered to pieces and the soap thrown all over the house.

Another of Mr. Young's neighbors gives these additional particulars:

Mr. Young was standing with both hands

Henry Ward Beecher asked Park Benjamin, e poet and humorist, why he never came er to Brooklyn to hear him preach. "Why, echer," replied Benjamin, "the fact is I ve conscientious scruples against going to aces of amusement on Sunday."

The Chicago *Post* says: "Sprague proposes 'give his whole mind' to the work of regen-ating the country. We shall be pardoned r suggesting that for so rich a man Sprague's ntribution is a very small one."

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash upon its Policies as future Dividends.
No permits or extra rates required for traveling East or in Europe.
Dividends actually non-forfeitable
Thirty days grace on the payment of all Premiums.
After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the proportion of Premiums received, or pay the equivalent in cash.
The rate at which we have been sending money East for Life Assurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, enormous as it seems, is totally eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent. compounded annually for ten years, is $6,952,167 27, here at 12 per cent, for four years, and 10 per cent. for six, compounded monthly, $25,690,906 62, or a difference of over eighteen millions!
With these facts in view, what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.
Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already [illegible] at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.
The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.
In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.
HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.
And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitality of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.
There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Disease, Spermatorrhœa or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhœa, Salt Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.
Terms $20, by the single week, or $60 for four weeks, Board, Room and Treatment in all ordinary cases.
N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.
We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.
We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all
The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.
Terms for Ladies, $20 a week, or $100 for six weeks (Board, Room and treatment).
DR. SMITH gives FREE Lecture to his patients every Wednesday evening, and also

State of Oregon vs. Mary Collins et al.
State of Oregon vs. David Young.

ONE OF THE TRICKS OF TRADE.—The *Commercial Herald* of the 18th says: "Very serious charges are made against New York jobbing houses by Western and Southern traders. It appears that frauds are perpetrated to an extent little conceived. Not only are piece goods, spool cottons, silk skeins, etc., deficient in quantity, but damaged goods, are sold as perfect, and retailers have been compelled, in many cases, to receive back the articles and refund the money, much to the injury of their reputation and business. The United States *Economist* contains several communications from Western traders complaining of the frauds described and naming some of the parties by whom they were committed. Other complaints of like character have been set forth in the Philadelphia journals, until attention has been aroused to the reprehensible dealings of the New York jobbers. California and Pacific coast dealers have no right to expect that they will be exempted from like peculations, and we have put the facts on record that they may be on their guard. The only way to put an end to such flagrant thefts is by exposing the perpetrators."

FROM VANCOUVER.—We clip the following items from the *Register* of Saturday:

There will be a Fancy Dress Ball on Monday evening, June 28th.

Judge Potter received a serenade last evening.

Michael Welch has received unconditional pardon from Gov. Flanders, dated June 18, 1869.

The reported earthquake on the Sound, turns out to be nothing but a land-slide from the southwest side of Mt. Rainier.

In the lower part of the town, below Sixth street, the pressure of water is so great that wooden pipes will not answer. The company will not lay iron pipes, as sufficient encouragement is not offered.

The P. S. and C. R. R. R., will start their second story on the 9th of next month. This party will be immediately followed up by the Chief Engineer with his corps of engineers.

Mr. Garfielde is expected here on the 28th of this month. There will be a ratification at Vancouver and not at Portland, as there would have been in case of Moore's election.

T. J. Fletcher returned to his home on the Washougal on Sunday. On Thursday he was not as well, still the physicians do not consider him in danger.

VISITORS FROM THE EAST.—The Washington correspondent of the Eugene *Journal*, under date of June 5th, writes: "Hon. John R. French, Sergeant-at-Arms of the Senate and ex-M. C. from North Carolina, will visit Oregon and Washington during the summer. Mr. Z. Moses, clerk in the House of Representatives, left here several days ago on a visit to California, Oregon and Washington, and Mr. C. C. Sympson, clerk in the Senate, will start on a visit to the same localities about the first of next month. Vice President Colfax, Senator Pomeroy, and several other distinguished persons will visit Oregon during the summer. Judge McBride and Mr. Curtis left here this week, and Judges Cummins and Shaw (Delegate from Idaho) will start early next week, overland. I expect to leave on Tuesday or Wednesday, and we will all probably meet at Chicago or Omaha, and travel together to Salt Lake where they will leave the railroad for Idaho."

THE "GREAT ECCENTRIC" HAS ARRIVED.—Geo. Francis Train, who more than any other man is now attracting the attention of the Pacific coast, arrived at our city last evening by the steamer *Oriflamme*. He was at once escort ed by the Reception Committee to the Cosmopolitan Hotel, where many of our citizens called upon and were introduced to him. Mr. Train is a man apparently fifty—his face would not look that old if it were not for his mixed grey hair—of pleasant personal bearing, and not at all the lunatic-looking individual we had confidently expected to see. Whatever his oration or his lectures may prove to be, we are sure that our people will like him in social intercourse, and will give him hearty welcome to Oregon.

MASONIC.—Washington Lodge, No. 46 A. F. & A. M. was duly organized and dedicated on the evening of June 24th, A. L. 5869, by P. G. M., A. A. Smith, under a dispensation granted by the Grand Master of the State of Oregon, directing said A. A. Smith to open and dedicate said Lodge, conduct the election of its officers and install the same. The following officers having been duly elected were then installed: I. W. Pratt, W. M.; John Harrison, S. W.; John Parker, J. W.; Sam'l E. Hubbard, S. D.; Martin Elam, J. D.; Joel M. Slack, Secretary; J. T. Smith, Treasurer; O. W. Smith, Tyler.

SOLD.—Just after sundown, last evening, somebody in the spirit of mischief, perhaps, fired a heavy gun at the north end of town, whereat everybody supposed the steamer *Oriflamme* had arrived and, instantly, there was a pell-mell rush for the dock—hotel coaches, hacks, express wagons, and men and boys on foot. Everybody wanted to get a glimpse of Geo. Francis Train. Upon arriving at the wharf, however, the affair at once dawned on all hands as a sell, and such a hustling as there was to get away! and everybody wanted to get away first.

PATENT HARNESS FASTENING.—A. A. Smith, of Eugene City, has shown us, says the *Unionist*, a patent fastening for harness traces. It appears to be a very simple contrivance. Mr. S. claims that it is much superior to the old buckle, as it adds strength where it is fastened instead of diminishing. It is also easier to take up or to lengthen out. We are no judge of such matters, but think the invention is a good one, and will probably come into general use, as it can be manufactured for about the same prices as the old buckle.

THEATRICAL.—We notice in the *Pagure*, the cast of Richard III, for the opening night at the Metropolitan Theater, June 10th, in which most of the persons recently connected with the Bates company at Portland, take parts. Mr J. H. Vinson—a favorite here—played King Henry; Miss Nellie Cummings, the Prince of Wales. E. N. Thayer, Hamilton, Clinton, Le Clair and Wilson are all in the cast.

CONSUMPTION AT ST. HELENS.—The *Register* says: "There is to be a big celebration at St. Helens on the 5th of July. There has been $250 raised for fireworks in the evening. Judge Augustus Smith, of Portland is to deliver the address. Many people have been invited from abroad. A stand will be raised and appropriately draped for the occasion in front of Meeker's Hotel."

COMING TO THE CELEBRATION.—The Albany *Register* says that a large number of the citizens of Albany, including the *Register* editor and *family*, are making preparations to attend the celebration at this city, if river navigation can be had at the proper time. Portland will make them all heartily welcome.

SAILING PARTIES.—There were several sailing parties out on the river, yesterday, the breeze being steady and fine all day. This amusement is coming much into favor of late. There are now several boats owned in the city, which are commodious and safe for parties of ladies and gentlemen, or even children.

CELEBRATION AT SODA SPRINGS.—At the celebration at Wilhoit's Soda Springs, Clackamas county, on the 3d of July, the Declaration of Independence will be read by Capt. Wm. Barlow, and an oration will be delivered by Chas. E. Warren, Esq. The Oregon City Brass Band will furnish the music.

ARRESTED AND SENT TO SALEM.—On Saturday, a Mr. Alexander was sent from this city to Salem under arrest, being charged with larceny. He was formerly a partner or employe in a drug store at Salem, and he is accused of carrying off sundry articles when he left.

PEWS IN TRINITY CHURCH.—At one o'clock to day, the pews in Trinity Church will be re-let for the coming year. Persons desiring choice of seats will please attend at that time. A committee of the vestry will be in attendance at the church.

UNINTENTIONALLY A MISTAKE.—The Vancouver *Register* says that Frank Clark and J. M. Murphy both "took water on Garfielde's election." Capt. Adams has fallen into a mistake, without doubt. Seriously, now, Captain, did you mean to say *water*?

COLLISION.—On Saturday the ferry boat came in collision with a scow which was crossing its track. A dray horse on board the ferry boat became frightened, commenced stamping round, and in the scrape one of the men on board had a leg badly hurt.

WOOL.—The *Unionist* says that one of the up river steamers brought down from Corvallis at one trip, last week, about 44,000 pounds of wool, and that there are large quantities at Albany awaiting shipment.

BOARD OF DELEGATES.—A meeting of the Board of Delegates was called for Saturday evening, but no quorum being present an adjournment took place to next Friday evening, at eight o'clock.

COMMITTEE MEETING.—There will be a meeting of the Committee of Arrangements on Fourth of July Celebration this evening at 8 o'clock, at the office of J. F. McCoy. The members of the several sub-committees as well as the committee at large are requested to be present promptly.

PASSENGERS FOR VICTORIA.—The following is the list of passengers by the steamer *Queen Telmire*, for Victoria Saturday evening: Miss H. Bacon, Maj. S. Francis and wife, John Bonard and wife, A. Vollmikle, J. H. Mitchel, wife, servant and family, Rev. S. V. Blackeston, Geo. Lange.

DODGE MEETING.—The officers of the Pacific Degree Lodge No. 1, I. O. G. T., will be installed this evening. All Degree members in the city are invited to attend. The new ritual will be used.

MEETING OF THE COUNCIL.—This evening the present City Council will meet, probably for the last time on earth. There are some matters to fix up, which accounts for the extraordinary meeting.

NOTICE.—Rev. W. H. Hillers, Presiding Elder of the A. M. Zion Church of San Francisco, will preach on Tuesday evening, 29th inst., at 7½ o'clock, in the new M. E. Church, on Taylor & Third streets.

FREIGHT FOR VICTORIA.—The steamers *Telfair* and *Wright* sailed Saturday evening for Victoria and Puget Sound ports, the former with eighty tons freight and the latter with about one hundred and thirty tons.

CROSS WALKS.—There are numerous cross walks just at present, which ought to be taken up to give place to new ones. They are worn and splintered so much as to be quite unsafe, besides the inconvenience they occasion.

TOWED DOWN THE RIVER.—The schooner *Alaska* was towed down the river to St. Helens, on Saturday, by the steamer *Wenat*.

THE WEST

G. H. Julian, member of Congress from the State of Indiana, and Chairman of the Committee on Public Lands, is in California.

The revenue cutter *Joe Lane*, which has been for some time in the Sound, has gone out of command and will be sold at auction on the 20th of July.

Hinds and Stone of Seattle are getting ready to erect a brick building 120 feet long, 60 feet wide and two stories high. They will also build a wharf 500 feet into the bay to accommodate shipping.

In Contra Costa (Cal.) Gen. P. Sandford was shot and dangerously wounded a few evenings since while walking from his house toward the village. No clue has been found to the person who fired the shot. Sandford has been overseeing Chinamen employed in improving the San Joaquin river, and there is no doubt but this attempted assassination is the work of the Ku Klux Democracy.

The Port Townsend paper says: We understand from parties in town that there is a subscription being got up to defray the expenses of a public dinner to be tendered to Mr. W. F. Barnard, upon his retiring from office, and also as a testimonial of the high esteem that his friends bear towards the author of the "Moral Dodge" in his patriotic efforts, and ultimate success in securing the election of Hon. S. Garfielde as delegate to Congress.

The Port Townsend *Message* complains as follows: There is no use disguising the fact that when the Republican party of this Territory nominate a man from the Sound as their Delegate for Congress, the Walla Walla Republicans make almost no exertion in his behalf. This is certainly unjust. Our Walla Walla friends must remember that when the candidate is one of their own number, they always expect the Sound to elect him. We are satisfied that had there been the same hard work done in other parts of the Territory that there was in Jefferson and Kitsap, Mr. Garfielde's majority would have been over a thousand.

There is something *naive* in our countryman's reply to the European traveler when asked whether he had just crossed the Alps: "Wall, now you call my attention to the circumstance, I believe I did pass risin' ground a spell ago."

LUNCH.—The proprietors of the INTERNATIONAL SALOON, will hereafter serve LUNCH, morning and evening, as good as may be found in any Saloon on the Coast. Call and try it.

"LIFE SAVINGS AND LOAN BANK."—The people of the city patronize the OREGON DISPENSARY in order to save money and procure a loan of longer life by using our FRESH, PURE and RELIABLE remedies, which are daily dispensed and preferred by the MOST RESPECTABLE and TALENTED PHYSICIANS in this city. Everybody takes a pull in patronizing our Store and thereby obtain DIVIDENDS by purchasing not only their medicines but also their toilet articles and other *sclat*, too numerous to mention. People say it is a pleasure to get sick and be cured at the Oregon Dispensary.

NATIONAL LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

Washington, D.C.

CHARTERED BY SPECIAL ACT OF CONGRESS!

APPROVED JULY 25, 1868.

CASH CAPITAL,

$1,000,000.

OFFICERS:

CLARENCE H. CLARK, Philadelphia, President.
JAY COOKE, Chairman Finance & Executive Committee.
HENRY D. COOKE, Washington, Vice President.
EMERSON W. PEET, Philadelphia, Secretary & Actuary.
E. S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATing Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

MONDAY MORNING JUNE 28, 1869

"The People's Money"

The *Herald* with that politeness for which it has always been celebrated, states that the outgoing City Council is hurrying forward with the $15,000 job in order to keep the money out of the hands of the "Radical thieves" who are about to go into office! It appears, then, that this pampered organ of a Council which the people have repudiated is of opinion that all wisdom and honesty are to take their departure from the city government with the dismissal of Messrs. Boyd, Hallock, and Norris. "This Democratic Council," says the expiring organ, "does not propose to let the Republicans have this $15,000 of the people's money to squander foolishly. Therefore the Democrats are doing nothing more than what the people are desiring, when they thus place this money where it will be perfectly safe from the crack-brained Radicals." This solicitude for the "people's money" is touching indeed, seeing that there was no manifestation of it till after the election. It appears, also, that the people did not know what they were about last Monday, when they gave the "Radical thieves," politely so-called by the *Herald*, the largest majorities ever received by any candidates in the city. It appears, further, that Messrs. Boyd, Hallock and Norris suppose that they are still the only legitimate representatives of the will of the people although the vote against them only last week was two to one. As they are now "doing nothing more than what the people are desiring," it is plain also that they modestly look upon themselves as the agents appointed by the people to save this money from the rascality of the officers whom the people have themselves elected. In this way do these condemned officials and their organ strut and swell and insult the people, during the remaining brief hour of their official existence! It is more apparent than ever that the people had the exact measure of them last Monday when they concluded to retire them and their friends to private life. The "organ" will soon be convinced that the Republican officials are entirely competent to take care of the "people's money." For instance, they will "squander" none of it to support a sickly newspaper which has not ability to make a living in a legitimate way, but will very materially reduce the supply of "pap" which has kept the "organ" in such fine condition during the last three years. Of course the new Council will be disposed to grant extraordinary favors to the paper which calls them "Radical thieves" and says they are unfit to be trusted with the affairs of the city!

A Sensible Democrat.

One of the less extreme and more sensible sort of Democrats is writing some letters to the *Commercial* on the "Democratic defeat in the late city election and the lesson it teaches." He shows that the party is managed in such a manner as to repel all Democrats who entertain moderate views and who have a stake in the welfare of the country. On this point the last letter contains these remarks:

How long is it since the *Herald* denounced the class of people who [illegible] our rich, and intimated that their riches were the result of wrong to other citizens, and indirectly intimated that this wealth might properly be taken from them. These were not the words but the substance of its remarks. We have many Democrats with us; they have their money by superior industry and good fortune. Their money has been used to develop the wealth of the country, and it is ineffable meanness to excite the ill-will, hatred and revenge of the less fortunate against them. Let the Democratic party cut off communion with this class—and how will it be? Not a copy of the *Herald* appears that does not recognize this class, and make war against its members. It seems to me that the *Herald* supposes that its efforts in this line will be considered by those it attacks as intended to benefit the party, to excite the prejudices of those it caters for, and that wealthy Democrats are willing to submit to insult and injury to benefit the party.

This Democratic writer then proceeds to consider the question, and in the course of his remarks tells some very forcible truths. He says:

The opposition to Chinese immigration is dishonest in this: A large portion of the most intelligent men of our party are not opposed to it; they may put up with denunciations from those who wish to create prejudice against Chinese immigration among laboring men for the benefit of party—if it may be—when they know that all efforts to arrest immigration will be futile. It will come; we cannot help it. Let the country avail itself of their labor. Why did not our friends on this coast stop this immigration when in their power? It was begun under our auspices and continued under our protection, and is it not a miserable fallacy to attempt to make the Republican party responsible for it?

It is really edifying to hear a Democrat talk so good sense as this in so straightforward a manner. He continues:

In regard to making Chinamen voters, I think they have no desire to be denationalized. At present I know of no man in our State who would put name to make them citizens, and at present we are battling the winds. When the Celestials cut off their cues, cease to regard China as their home, adopt our habits and customs, we then may fear that designing men will take measures to make them voters; and I have so little faith in men that I believe in such a case that these men who would be sure of getting their votes would seek to make them citizens. But that day, in my opinion, is far off. May it never come.

The writer further says that though he and his party will oppose negro voting to the last it is clear that, "oppose it as we may and shall oppose it, it is destiny." Of course the *Herald* assails this writer. That paper could not be expected to tolerate any utterance of common sense. But if its party supposes it can succeed by making war on every man of wealth, every man who is opposed to persecuting the "inferior races," and every man who protests against dishonoring the nation by repudiating its solemn obligations, just let it go ahead.

A story is told by an Eastern paper and telegraphed across the continent that an extensive movement is on foot to carry the country over to imperialism. We are not at all alarmed about this new Democratic movement. It will fail as miserably as the "Sons of Liberty," "Knights of the Golden Circle," etc., etc., failed in their efforts to carry the country over to secession. This movement towards imperialism is only another of the many forms in which latter-day Democracy makes it appearance.

Beriah, in his *Press* of Saturday, attacks Ben. Hayden, sneers at him, calls him "dirty Ben.," and says that he is not a "representative Democrat." Beriah's mind is still inflamed against Ben. because the latter snubbed him so unmercifully in the Democratic Convention last year. It is the more inflamed because the Convention unanimously sustained Ben.

As we expected, Beriah assails the *Herald* furiously for the result of the election in this city. The poor old man can never be anything else than an enemy of that paper. He can never forget that he was dismissed from it for his imbecility, to make room for a man who far excels him as a Democratic editor

San Francisco

The following significant paragraph appeared in the San Francisco *Bulletin* of June 16th:

Mastick, Pixley & Co. to-day held their regular auction sale of real estate, the result of which was a signal failure. There was the customary large attendance, but no disposition whatever was manifested to purchase. The catalogue did not contain a single piece of property that was not desirable either for speculation or investment, and as the real estate market has not evinced a very buoyant tendency within the past few weeks, sellers were disposed to sell at a reduction from prices that have lately been current. Some parties placed their property in the hands of the auctioneer with peremptory orders to sell, without any limit as to price; but the absence of any record of transactions to-day shows that it was impossible to carry out such instructions.

The chief burden of the editorial and commercial columns of San Francisco journals for months past has referred to the dullness of trade, the stagnation of business and the scarcity of money in that city. The Stockton *Independent* says there is no other large city of the Union "in which the above extract from the *Bulletin* could be truthfully published. We venture to say that in any of the great Eastern cities, under similar circumstances, desirable real estate could, on any stated day, and at any stated time of the day, be converted indifferently into greenbacks, gold, silver, precious stones or any other commodity, at within a small per centage of its current value. San Francisco stands in her own light, holds California by the throat, and is choking her to death."

OREGON.

Quite a number of the citizens of Eugene are coming to Portland to celebrate.

At the late fire in Albany the fire company pumped all the wells in the vicinity dry. There was great danger that the largest portion of the town would be burned.

A Eugene paper learns that Mr. J. Welcher, of Starr's Point, Benton county, died very suddenly on Saturday night last. He went to bed at night as well as usual, and was found dead in bed in the morning.

Geo. T. Cotton of Albany has invented an expansion pulley which is intended to obviate the necessity of lengthening or shortening the band in increasing or lessening the speed of machinery, and it is done in a moment's time, and that, too, without stoppage.

I. W. Knight writes from La Grande to an Owyhee paper that Missouri will have quite an addition to her population this year by carpet-baggers from Eastern Oregon. These are the gentlemen whom the Union troops made Missouri too hot for in 1864.

The *Unionist* says: Wool is about the only article of merchandise that is now being shipped from the upper Willamette warehouses. The P. T. Co.'s steamer *Success* took down from Corvallis on her last trip two hundred and fifty-three bales of wool, equal to about 44,000 pounds. One hundred and fifty bales are now at Albany awaiting shipment.

The Corvallis *Gazette* gets off the following: At the last term of the Circuit Court the Judge very gravely charged the jury, that in order to convict a certain gentleman of keeping open a tippling house on Sunday, they must believe that the lager beer that was peddled out in that institution would make a man reasonably drunk. Query: What would be unreasonably drunk?

The Jacksonville *Sentinel* of recent date says: In Goose Lake there is a sand reef that cannot be reached by the coyotes, and on it the gulls, pelicans and geese have laid immense numbers of eggs. A short time since, travelers and settlers commenced carrying them away by wagon loads, and the birds, evidently finding the institution very discouraging, broke all their nests up in a single night. It is thought that if not disturbed, they will return and try it again.

From the Eugene *Journal*: We learn that a company has been formed for the purpose of improving the Long Tom with a view to its navigation, and that an order for lumber for the building of a boat to run on that stream, has been sent to the Springfield Mill Company. If this is true it will be of great advantage to the people of that section of the country, as it is difficult freighting there a great portion of the year on account of overflows and the ground being of a very soft nature.

GENERAL NEWS ITEMS.

Geo. Pauncefort is giving readings from Dickens at Boise City. He has good houses.

The new court house in New York has already cost $4,950,000. The *Tribune* avers that "no man living can believe that building as it stands has really cost $2,000,000."

Boston is to have a new postoffice, but its triumph is dashed by the fact that a beautiful horse-chestnut tree—the pride of the Hub—must be sacrificed to make room for the building.

The Prussian journals state that a Protestant Jubilee is to be held next autumn, at Berlin, as a sort of counterpoise to the Council to assemble in Rome. Many of the nations are invited to participate.

The Department of Agriculture estimates the increase in the number of horses in the United States since 1860 at 1,750,000, or 25 per cent. The whole number is now said to be about 8,000,000, valued at $2,666,000,000, which is considerably more than the whole national debt.

The following intelligence comes from Bucharest: A brigand of Herculean strength was about to be hung for murder. He burst the straps which bound him like flax, seized the executioner and hanged him before assistance could arrive. He was thereupon appointed to his victim's office.

The Government has sent down to Mt. Vernon a number of cases formerly in the Patent office, containing uniforms, cooking utensils, camp equipage and other personal property of General Washington. They have been forwarded and committed to the care of the Ladies' Association, who will prepare them for public inspection in the old house.

An Exposition of Textile Fabrics is to be held at Cincinnati in August, under the auspices of the Woolen Manufacturers of the Northwest. Products of mills, staples of cotton, wool, silk, flax and hemp, will be exhibited. The South is expected to send a large delegation, from the fact that her people are becoming alarmed to see that out of 3,500 cotton and woolen mills in the United States, the Southern States have but 311.

Labor strikes in New York have not proved very successful to the strikers. The hotel proprietors resolved to employ none of the strikers at any rate of wages. The tailors were unable to obtain any advance, and were compelled to resume work at the old rates. But the strike of the window and door framers was the most signal failure of all. The "bosses" not only refused to pay any increase of wages, but also determined not to take any of the strikers back.

Mr. C. was in the habit of asking his children to repeat the text, on their return from church, to prove that they gave attention. One Sabbath the text was, "Why stand ye here all day idle? Go into my vineyard and work, and whatsoever is right I will pay thee." Charlie came home, and was asked to repeat the text. He hesitated a moment, and then, as if it just came to him after much thought, he said: "What are ye loafing round here for, doing nothing? Go into my barnyard and go to work and I'll make it all right with you."

During the cross-examination of a witness he was asked where his father was. To which question, with a melancholy air he responded "Dead sir- dropped off very suddenly, sir." "How came he to drop off suddenly?" was the next question. "Foul play, sir—the sheriff imposed on his unsuspicious nature, and getting him to go on a platform to look at a select audience, suddenly he knocked a small trap-door out from under him, and in falling he got entangled in a rope, from the effects of which he expired."

LAST NIGHT'S DISPATCHES.

Washington News.

WASHINGTON, June 25.—Mr. Roberson was sworn in as Secretary of the Navy by Chief Justice Carter and he attended the Cabinet meeting to-day.

Several additional clerks were dismissed from the Treasury Department to-day.

Hon. H. K. Hubbard, Comptroller of the Currency, leaves Washington to-day on a trip to the Northwest. He will be absent three weeks.

PHILADELPHIA, June 25.—A fire in a building on Chestnut street damaged Lindon's lithograph establishment about one thousand dollars in sum.

WASHINGTON, June 25.—The Cincinnati Base Ball Club beat the Nationals of Washington Score, 24 to 8.

CINCINNATI, June 25.—The *Enquirer*'s Washington special says the *National Intelligencer* suspended to-day for the first time in sixty nine years. Cause, financial embarrassment, owing to the loss of Government patronage. It has been for some time in the hands of a receiver. There is some talk of changing it to an evening paper, but it is not probable.

The change in the Cabinet took everybody by surprise. It was well known that Borie accepted it originally with much reluctance and has frequently expressed an intention to retire. The President saw Roberson last Monday, during his trip north, and made arrangements which were consummated yesterday. Borie gave a little dinner party on Thursday, and probably nobody present, except Admiral Porter, knew it was a farewell reception. The secret was so well kept that nobody knew of any intention of making a change. Admiral Porter will probably continue to virtually manage the Department. The new Secretary of the Navy attended the Cabinet meeting, and will to-day forward to the Governor of New Jersey his resignation as Attorney General of the State.

New York News.

NEW YORK, June 25.—The inhuman officers of the *James Foster* were sentenced to-day, Glynn, the carpenter, for fifteen years, Cruthers, the boatswain, for seven, and Murphy, the third mate, for five years in the penitentiary.

About twenty cigar dealers were arrested on the charge of not affixing stamps to each box of cigars, Commissioner Delano having decided that that is the law.

The stock of F. C. Gaffield, wholesale dealer in distilled spirits, and the place of business of two other dealers have been seized, and the former removed to a bonded warehouse. About six thousand gallons of spirits are involved.

The Polish residents have made arrangements for a triennial celebration of the peaceful union of ancient Lithuania, Padalia and Galacia with the kingdom of Poland in 1869.

NEW YORK, June 25.—The Western Union Telegraph operators beat the *Herald* employees at a game of base ball, at Hoboken, by forty to twelve.

NEW YORK, June 25.—Several additional Cuban leaders were arrested last night.

Seventy-five thousand smuggled segars were seized yesterday on the bark *Onoa*, from Havana.

NEW YORK, June 26.—Arguments in a writ of error in the case of John Real, convicted of the murder of officer Smedick, were heard yesterday in the Supreme Court, which adjourned till Monday without giving a decision.

At a very late hour last night captains Callet, Beaman and Hanson, soldiers said to be engaged in enlisting recruits for the Cuban army, were arrested and lodged in Ludlow street jail.

General Sickles has accepted a complimentary dinner tendered him on the evening of the 30th by leading citizens of this city.

At a meeting of the Woman's Rights Association last evening, Mrs. Phillips, Miss Gibbons and Miss Loser, were elected delegates to the Woman's Rights Convention to be held at Chicago this fall.

U. P. R. R. Commissioner's Report.

CHICAGO, June 25.—The *Republican* this morning publishes the report of J. A. Morris, Commissioner appointed to inspect the unaccepted portion of the Union Pacific Railroad, which will be submitted to the President to-day. The report is very long and rather unfavorable to the road, saying the road was not well built in many places, and that the Government should have withheld at least the subsidy until the road was made first class. It recommends the Government to declare the first mortgage bonds null and void as such, and make its own bonds a first mortgage on the road, and reduce the present first mortgage to second mortgage bonds. Morris thinks Congress receded in allowing the two companies to build the road without fixing the point of junction, and in consequence of enormous grants of land and other subsidies each company endeavored to build the greatest number of miles of road. The time was too precious to incur delay in procuring the best material or doing the work in the most perfect manner. The report thinks the road is dangerous in many places. The cross ties are soft white pine and laid at extremely irregular intervals, not parallel with each other, and appear to have been pitched down and the rails spiked wherever the tie fell. The report very confidently asserts that these ties will never answer the pupose for which they were intended.

Miscellaneous.

CHICAGO, June 26.—Rain continues throughout the northwest, and it is feared that corn crops will be entirely destroyed in many parts of the country. It is also feared that rust will damage the wheat, although the present prospects of a fine crop of that grain are good.

RICHMOND, June 25.—The commencement exercises of Washington College at Lexington commenced on Saturday. Gen. Lee distributed the medals and diplomas. C. H. McCormick, of Chicago, a member of the Board of Trustees, was unavoidably absent and sent as a substitute a check for five thousand dollars.

Registration is just closed and shows a generally increased white majority. The State Conservatives claim that their vote is increased to 20,000.

The political contest in Virginia increases in excitement, both parties holding a number of meetings before election.

Cuban Affairs.

NEW YORK, June 25.—A Havana letter of the 19th says that on the 16th several dispatches came to Spain from Generals in the field, that they wanted more men and represented their force as in danger.

The Spaniards at Puerto Principe and on the road to Neuvitas, have suffered heavily from rebel attacks.

A correspondent from Havana sends the following statement of the forces in the field. The Government has 13,000 regulars and 27,000 volunteers, added to 1,689 volunteers garrisoning the principal cities, of which 925 are at Havana. The Patriots have 36,000 whites and 19,000 negroes, of which about 26,000 are well armed. This force probably will be increased to some 800 whites and negroes in a short time, should they continue to receive arms and ammunition from the United States.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 27.—The forthcoming benefit for the Mercantile Library Building Association, at the California Theater, promises to be very successful. Private boxes and seats in the dress circle were auctioned off yesterday and $2,200 realized on four rows in the dress circle. One of the boxes sold for $130.

The funeral of the late Hon. J. G. Denniston takes place to day from St. Mary's Cathedral.

A meeting of the Democratic County Committee was held last evening for the purpose of canvassing the returns of the late primary election.

The total number of deaths for the week ending noon, yesterday, was 68.

But two new cases of small pox were reported during the week.

The Lake House at San Jose was partially destroyed by fire, yesterday morning. Loss about $2,000.

There is no news of interest.

The weather is warm here to-day.

OROVILLE, June 27.—Judge Jos. E. N. Lewis died suddenly of heart disease, at the residence of Mr. Peter Freer, at about 11 o'clock last evening. He had been about town as usual during the day and was in a justice's court attending to a case in the afternoon.

The Democratic Judicial District Convention met yesterday and placed him in nomination for Judge of the 2d Judicial District.

NEVADA.

VIRGINIA, June 26.—The Yellow Jacket mine is now working but sixty hands. James O'Donnell, foreman for seven years, has been recently reinstated, which gives much satisfaction to interested parties.

In the District Court yesterday in the case of Kate Healy vs. Imperial Fire Insurance Company, verdict for plaintiff.

Virginia and Truckee Railroad vs. Ellen Bowers, et al., Commissioners appointed to appraise property.

The stages for Reno to connect with Western bound trains, leave this city at 10.30 P. M. instead of 10, as formerly.

The small pox has quite died out in this city and vicinity.

Weather pleasant.

The people in Payette valley, Idaho, have lost their whole crops by the ravages of the grasshoppers.

OUR WASHINGTON LETTER.

FROM OUR REGULAR CORRESPONDENT.

THE UNION AND CENTRAL PACIFIC ROADS—PRESIDENT GRANT'S APPOINTMENTS—THE QUESTION OF COLOR IN THE GOVERNMENT PRINTING OFFICE—FUTURE GRANTS TO WESTERN RAILROADS—EMIGRATION SOUTH AND WEST—MISCELLANEOUS.

WASHINGTON, Saturday, June 12, 1869.

The completion of the Central and Union Pacific roads connecting the Missouri river with the Pacific ocean was duly appreciated here as elsewhere, although Director Snow had made a terrible onslaught upon the Union Pacific just prior to its completion. Mr. Snow's vigorous assaults did not have much effect upon our citizens, because instead of reason and argument, the report exhibited too much vindictiveness and bitter denunciation. The Washington *National Intelligencer*, of which Mr. Snow is part owner, still continues to harp upon this subject, and seeks every opportunity to disparage the road in the eyes of the public. Two ideas appear to have taken possession of the public mind in regard to the road: that its completion must prove of great benefit to the whole country and especially the far West, and that it is not a first class road. There is considerable feeling manifested upon the subject of the rates charged for freight and passage, the charges being considered exorbitant.

PRESIDENT GRANT'S APPOINTMENTS.

Some of the President's appointments have been severely criticized, and many of them unjustly so. It was naturally to be supposed that where there were a hundred applicants for one position, ninety-nine must be disappointed. Whenever a man is appointed to a position in the civil service, who is in every way qualified but has not been a noisy politician or belonged to a clique or ring, the men who have performed great lip service but very little real work, set up a hue and cry that the individual so appointed has done nothing for the party and hence is not entitled to an office. I am not a believer in the doctrine or theory propounded by too many that a man is entitled to an office for doing that which he believes to be right in political matters, and hence I do not sympathize with those who are continually averring that they have done more than anybody else for the party. If every one were to claim an office under the plea that he had been living up to his highest conception of right, I fear the entire party would soon become terribly demoralized. I am free to admit that the President has made some appointments which are not the best which could have been made, but this is mainly due to Senators and Representatives and other "influences" which have been brought to bear upon him.

A QUESTION OF "COLOR" IN THE GOVERNMENT PRINTING OFFICE.

The agitation among the printers of our city in regard to the employment of Lewis Douglas, a colored printer, in the Government printing office still continues. In fact the agitation has taken a fresh start, because the National Typographical Union, now in session at Albany, N. Y., to which body the whole subject has been referred, has tabled a resolution to admit colored men into Printers' Unions. The Washington Typographical Union dodged the question and referred it to the National Union. I understand that the Public Printer says that Mr. Douglass shall work at the Government office, even if the Union refuse to admit him as a member. Hence we may expect a "strike" and a lively time generally at the Government office. It looks now as if the agitation of this subject would result in the formation of antagonistic Unions throughout the country—one party admitting colored men as co-workers and the other rejecting them.

FUTURE GRANTS TO RAILROADS.

It is said that the Administration has taken a firm stand in regard to grants to western railroad companies. President Grant and his Cabinet are not opposed to granting public lands to aid in the construction of railroads in reasonable quantities, but if Congress should pass a railroad bill giving or loaning the money or lands of the Government to aid in its construction it would assuredly encounter a veto.

EMIGRATION SOUTH AND WEST.

Great exertions have been and are still being made by land agents and citizens of the South to turn the tide of emigration southward, but thus far the effort has met with but partial success. The emigration southward appears to come principally from Pennsylvania, New York and New Jersey, and the emigrants are settling principally in Virginia and North Carolina. From present appearances I should judge that this emigration is not likely to assume large proportions because speculators have already bought up nearly all the cheap lands and advanced the prices one hundred per cent.

MISCELLANEOUS.

The municipal election in this city, on Monday last, resulted in favor of the Republicans by a majority of 4,000. The Democrats did not elect a single member of the Council. There was a disturbance at one of the precincts, occasioned by the efforts of some colored Republicans to mob a colored Democrat. The Chief of Police, who is a Republican, took the subject promptly in hand, and detailed a squad to escort the colored Democrat up to the polls so that he could vote without being intimidated. Hereupon an attack was made on the police force with stones, etc., and the rioters emerged from the contest with a loss of half a dozen wounded men, two of them seriously. The action of these rowdies is condemned by every intelligent colored man in the city.

For some time efforts have been made by parties to compel all Catholics to withdraw their children from the public schools and send them to the Catholic schools. A majority of the Catholics in this city have steadily refused to comply with this request. Since the late council of the church in Baltimore, still more strenuous efforts are being made by the priests to carry their point, and this contest between the priesthood and the people, as it looks at present, is likely to culminate in something. Already many Catholics are falling away from the church because of this interference with their liberties.

We have at our Rooms on hand an article of Old O. K. Cutter Whisky, to which we call the attention of connoisseurs "and defy competition." One call at the International Saloon will be enough to satisfy the most fastidious. JOHN S. SIREY & CO.

THE DAY fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

WE, the undersigned Committee appointed to decide upon the merits of the washing done by Kane's Condensed Soap with common Boiler, and the Automatic Boiler, decide that the washing done by KANE'S CONDENSED SOAP is the best, doing the work in a superior manner with less labor, no rubbing being done in using Kane's Soap, but that borax was used in the Automatic Boiler.
